REFERENCE LETTER

I have attended the High Performance Thinking Seminar and found it a very interesting, informative and beneficial seminar. The Speaker of the Seminar, Ms Laurie Nadel is an excellent instructor who is very knowledgeable in the subject. She has helped all the participants of the seminar in realizing the powers of the human minds, the best means for understanding ourselves and others to effect better communications, and trusting ourselves and our intuition in making the best decisions when facing difficult situations.

The areas which I have benefited include the following:

- Understanding the great potentials of the human mind.
- Learning how to listen to ourselves and others.
- Learning about, trusting, and further developing our intuition.
- Realizing how others behave and think to effect better communications and causing successful group work.

Best Regards...

MANSOUR MOH'D AL-AMEER
Manager (Management Support)
